Mwakanemela Kayange

Personal Details

Email: kayangemwakanemela@gmail.com

Phone number: 0886473493

Location: Blantyre, Malawi

GitHub: https://github.com/mwakanemela

Skills

- Software Engineer / Development
- Networking Skills
- Able to use git and github
- Database Management

Programming Knowledge In:

1. C, C++
2. JavaScript, typescript
3. Java
4. PHP
5. Kotlin
6. Python
7. Assembly Language
8. HTML, CSS
9. MySQL, NoSQL(Mongodb, Firebase)

Summary

I am a certified ICT person, majored software engineering from Daeyang University in Lilongwe, Malawi (2019-2023). Worked as a software developer intern at Malawi digital health division from October, 2022 – February, 2023. Worked for UYSCUTI Tech, a startup company from, August 2023 – September 2024 as a software developer. Since then, I have been freelancing of which I have worked for Micheal Trounce of exante data flow via upwork as a junior frontend developer.

Programming Experience

I develop Full Stack apps using React for frontend and nodejs for backend. Some of my projects include:

- ⇨ https://react-quiz-app-phi-taupe.vercel.app/
- ⇨ https://react-shopping-cart-system-eta.vercel.app/
- ⇨ https://github.com/Mwakanemela/Blog-API
- ⇨

I also develop android apps using kotlin, some of my android apps are:

- ⇨ https://github.com/Mwakanemela/Android-Note-Taking-App
- ⇨ https://github.com/Mwakanemela/Android-Weather-App
  And many more.

With PHP, I made this MVC which simplifies my development:

- ⇨ https://github.com/Mwakanemela/PHP-MVC-Framework

With python I did:

- ⇨ https://github.com/Mwakanemela/Python-ImageBased-Detection-ML

For HTML, CSS, and JS:

- ⇨ https://mwakanemela.github.io/E-commerce-Web-design/
